NP2

NETWORK PANEL

Description	The NP2 Network panel is equipped with 9 Ethercon connectors and 2 OpticalCon connectors, utilizing optical multimode LC fiber optic cables. Its primary application is completing the TTR 16K rack by providing reliable network links to XPS 16K amplifiers and external Ethernet switches. This panel is engineered for stable digital signal distribution and network management in professional setups.	
General specifications	Front connectors:	9 Ethercon feed-through connectors 2 OpticalCon feed-through LC multimode connectors
Standard compliance	Safety agency	CE compliant
Physical specifications	Color	Black
	Rack mounting	19", 1U
Size / Weight	Weight	0.76 kg / 1.68 lbs
